

Job Title: Project Engineer

We are looking for an accountable Project Engineer to be responsible for all engineering and technical disciplines that projects involve. You will schedule, plan, forecast, resource and manage all the technical activities aiming at assuring project accuracy and quality from conception to completion.

Qualifications:

3+ years relevant, progressive project responsibility including field supervision is required.

Bachelor's Degree in engineering, construction management, or a related discipline.

Demonstrated leadership, communication, and interpersonal skills.

Estimating and scheduling experience a plus.
